

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

## Your mission & challenges

Together, we are taking the step into a new era of cognitive robots:

- Conduct manual system-level testing, including functional, integration, and user acceptance tests, across various robotic systems
- Identify, document, and track defects during testing, providing clear and detailed descriptions to facilitate swift resolution
- Work closely with engineering teams to communicate findings and support troubleshooting efforts for identified issues
- Assist in the creation and maintenance of test documentation, including test case specifications and test report summaries
- Ensure all testing activities adhere to safety standards and protocols

## What we can look forward to

- Bachelor's degree in Robotics, Mechanical Engineering, Electrical Engineering, Computer Science, or a related field
- 2-4 years of experience in manual testing, preferably in the robotics or complex systems domain
- Good understanding of robotic systems and components
- Experience with test documentation and reporting tools
- Basic programming or scripting knowledge is a plus
- Fluency in English is required

## What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

## We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
