Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

Are you a creative thinker with a passion for design and innovation? Join our UI/UX team at NEURA Robotics, where we are redefining the future of human-robot collaboration. As a UI/UX Design Intern, you will have the opportunity to contribute to the user experience and interface designs for cutting-edge robotic systems.If you're passionate about creating user-friendly designs and want to be part of a team revolutionizing robotics, we'd love to hear from you!

- You assist in designing and prototyping intuitive interfaces for robotic applications.

- You create icons, illustrations, and other visual assets for our software platforms.

- You conduct user research and usability testing to ensure that designs meet user needs.

- You collaborate closely with the UI/UX team and developers to implement and refine design solutions.

- You organize and maintain design assets in accordance with the NEURA Grid design system.
- You support the team with innovative ideas to continuously improve the user experience of our products.

What we can look forward to

- You are currently enrolled in or have recently graduated from a degree program in design, human-computer interaction, or a related field.
- You are proficient in design tools such as Figma, Adobe Illustrator, and similar programs.
- You have a solid understanding of design principles, typography, and color theory. Ideally, you have knowledge of prototyping and wireframing tools.
- You are eager to learn and motivated to actively contribute in a fast-paced environment.
- You have strong attention to detail and creativity.
- You possess excellent communication skills and can collaborate effectively with cross-functional teams.

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.
We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
