

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

We are looking for an experienced and motivated Teacher/Trainer (Human) for our Academy. Who thinks differently than the masses and uses all innovative opportunities to create our leading educational institution committed to providing high quality training and cutting-edge learning sessions.

- Create, develop and implement an end-to-end, best-in-class robotic-human learning experience with effective lesson plans and instructional materials tailored to meet the needs of learners at various skill levels as well as in the areas of robot operation, programming, maintenance and sales
- Provide coaching focused on our NEURAVERSE processes and systems to drive effectiveness and efficiency while promoting a customer-centric experience, coaching behaviors that lead to exceptional customer satisfaction

- Assess sales and technical skills and techniques to provide onsite training to our partners and coaching on specific behaviors to impact our growth
- Manage, coach and mentor a network of Train the Trainers and ensure continuous process improvement
- Conduct field training needs analysis and ensure sufficient capacity planning for our Academy and Train the Trainer sessions
- Comply with all NEURARobotics safety policies, ISO certifications and standards. Understand and comply with federal, state, and local regulations affecting robotics operations
- Overall responsibility for the Academy and maintaining and reinforcing safety and security standards by partnering with Environment, Health & Safety, Workplace and Security teams
- Represent NEURA Robotics at internal and external tradeshow and events - be our point of contact for innovative training experiences

What we can look forward to

- Previous teaching or training experience is preferred, particularly in education or professional development to build collaborative relationships with learners
- Passionate knowledge and expertise in robotics, AI, automation, or related technologies
- Excellent communication and interpersonal skills, with the ability to effectively engage and motivate people in both German and English
- Demonstrated ability to develop and deliver engaging and interactive course content, plans, and presentations
- Adaptability and flexibility to meet the needs of diverse learners and instructional environments
- Knowledge of educational technology and learning management systems preferred
- The drive and ability to learn new things (e.g. technology, methodology, didactics, and social skills) on your own and to develop things from scratch in a rapidly changing environment

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program

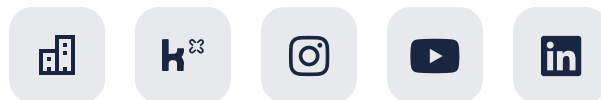

- And even more fun with great colleagues
