

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"**We serve humanity**" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

You take full ownership of our supply chain and ensure seamless collaboration between logistics, production, and procurement. With your technical background, you design material flows, optimize processes, create layouts, and manage the entire procurement process through to contract management.

You act as the interface between manufacturing and logistics, ensuring that our operations are efficient, transparent, and future-proof.

- Independently plan, manage, and optimize logistics processes from material procurement to final delivery
- Create and maintain logistics layouts and process flows, and coordinate interfaces with production/manufacturing

- Oversee the entire procurement process within logistics, including supplier selection, offer comparison, negotiations, and contract management
- Identify efficiency potential and implement process improvements
- Conduct technical analyses of supply chains, material flows, and production requirements
- Collaborate with internal departments to ensure smooth material and information flow

What we can look forward to

- Degree in Logistics, Supply Chain Management, Industrial Engineering, or a comparable qualification
- Experience in logistics planning, procurement, and contract management
- Strong technical understanding of production and manufacturing processes
- Confident handling of ERP systems and common logistics software
- Analytical mindset, structured working style, and strong communication skills
- Experience in coordinating interfaces between logistics and production is a plus
- Fluent German and English language skills (negotiation level)

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
