

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

**"We serve humanity"** is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

## Your mission & challenges

- Design, implement, and maintain ETL data pipelines at scale
- Build and optimize data models for robotics applications
- Ensure data quality, governance, and security across all platforms
- Develop data workflows using scalable processing, streaming, and dataset curation technologies
- Collaborate with cross-functional teams to deliver high-quality datasets
- Evaluate and integrate emerging data engineering technologies and best practices

# What we can look forward to

- Master's degree in Computer Science, Information Systems, or related field
- 7+ years of experience in data engineering or related roles
- Strong programming skills in Python and SQL; experience with Java or Scala for big data frameworks
- Experience with modern data technologies (Spark, Kafka, Airflow) and NoSQL databases (e.g., MongoDB)
- Cloud expertise (AWS, Azure, or GCP) and familiarity with data lake/data warehouse solutions
- Proficiency in containerization and orchestration (Docker, Kubernetes)
- Excellent problem-solving and debugging skills
- Ability to work independently and as part of a team
- You have a perfect command of the English language and, best of all, speak German well

# What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

**Apply**

**We are looking forward to meeting you and shaping the future of robotics together. Are you in?**

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
