

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

**"We serve humanity"** is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

## Your mission & challenges

Together, we are taking the step into a new era of cognitive robots:

- Development and implementation of a strategy for actuators
- Definition of technology and product roadmaps
- Steering development in the field of actuators
- KPI tracking
- Optimization of cost, quality, and performance of actuators
- Identification of market trends in the robotics sector

# What we can look forward to

- Completed degree in mechanical engineering, mechatronics, electrical engineering, robotics, or a similar field (Master's or PhD)
- Several years (10+ years) of professional experience in the development and industrialization of actuators
- Strong knowledge in:
  - Electric motors (BLDC, servo, and torque motors)
  - Gear technologies (cycloidal gears, planetary gears, harmonic drives, etc.)
  - Power electronics / embedded systems
  - Control engineering / motion control
- Experience in prototype development and series (mass) production
- Experience in robotics (humanoids, cobots, industrial robots)
- Proven experience in leading interdisciplinary R&D teams
- Experience in building and scaling business units
- Strong competencies in:
  - Strategic planning
  - Budget responsibility
  - KPI management
- Ability to translate technical visions into market-ready products
- Interfaces (collaboration with):
  - Purchasing & supply chain
  - Production
  - Other business units: 4NE1, Arms, MiPA, etc.
  - Robot core software
  - Certification & safety
  - Testing

# What you can look forward to

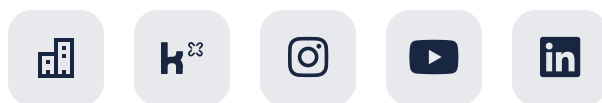

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

**We are looking forward to meeting you and shaping the future of robotics together. Are you in?**

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!

**NEURA**
