Your mission & challenges

The visibility and positioning of our CEO is a crucial success factor for the international perception of NEURA Robotics. As founder and face of the company, he shapes the public discourse on the future of cognitive robotics – whether on social media platforms, in interviews, at conferences, or on major stages worldwide. To further enhance this impact, we are strengthening our Marketing & Communications department and are looking for a strong communicator who, with strategic insight, creativity, and organizational talent, will take responsibility for and professionally manage PR and CEO communications.

- You plan, design, and coordinate the CEO's public appearances, interviews, and events – from preparation to follow-up.
- You manage the publication of content together with the content team and ensure timing and quality are on point.

- You support the CEO in managing his social media channels and develop concepts and content for a strong, consistent positioning.
- You act as the central contact for external service providers handling PR tasks.
