

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"**We serve humanity**" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

- Develop extensions (AL) for Microsoft Dynamics 365 Business Central
- Implement complex technical requirements across Finance, Production, Logistics, Project Management, Service, and Purchasing
- Design and further develop automated Business Central processes, workflows, and integrations
- Develop, implement, and maintain interfaces (API, OData, EDI, scanner, CAD, and robotics systems)
- Design and extend data models and analyze technical system relationships
- Support international rollouts and multi-company setups

You will also take on central responsibility for the release management of the Business Central landscape:

- Conduct code reviews, testing, debugging, and performance optimization
- Create technical specifications, documentation, and solution concepts
- Support the ERP team in 2nd and 3rd level support for complex BC applications

What we can look forward to

Must-have

- Several years of experience as a Business Central Developer
- Strong expertise in AL
- Experience with interfaces (API, OData, web services, EDI)
- Solid understanding of core BC modules (Finance, SCM, Production, Logistics, Service, Project)
- Experience with release and deployment processes (sandbox/production, app management)
- Strong analytical skills, a structured working style, and a hands-on mentality
- Experience with Git, DevOps, or comparable version control and build systems
- Good written and spoken German and English skills

Nice-to-have

- Experience in an industrial environment or in companies with more complex organizational structures
- Knowledge of the Microsoft Power Platform (Power Automate, Power Apps)
- Experience with Azure cloud services or CI/CD pipelines

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward

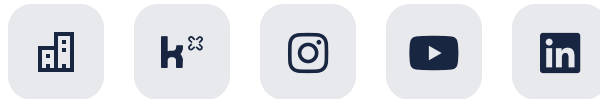

- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
