Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

- Analysis, design, and optimization of business processes in the standard areas of Business Central
- Translation of business requirements into clear, actionable concepts
- Creation of process documentation, user stories, and specifications for the BC development team
- Technical configuration within Business Central (e.g., workflows, role concepts) in coordination with the ERP team
- Supporting ERP rollouts at national and international locations.
- Taking over support monitoring, prioritization, and analysis in close cooperation with the ERP team, key users, and external partners

- Monitoring interfaces (e.g., EDI, scanners, CAD) and escalating issues in case of malfunctions

- Acting as a contact person for key users and departments for all BC-related topics.

- Support with data migrations, master data quality, and integration issues

- Training of users and development of best practices, process standards, and documentation

What we can look forward to

- Experience with Microsoft Dynamics 365 Business Central (BC) – ideally in multiple modules

- Good understanding of end-to-end business processes in an industrial environment (e.g., order processing, production, warehouse logistics)

- Experience in ERP projects, rollouts, or migration projects

- Strong analytical skills and enjoyment of structured process work

- Advantageous: experience with interfaces (API, EDI), Microsoft Power Platform, or BC add-ons

- Very good communication skills, ability to work independently, and strong problem-solving skills

- Good written and spoken German and English skills
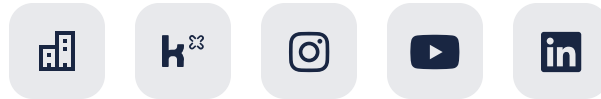

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team

- Enjoy an attractive salary, flexible working hours and 30 days of vacation

- The freedom to contribute your own ideas and drive them forward

- Celebrate successes together with company events

- Take advantage of our corporate benefits program

- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.
We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
