

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

Together, we are taking the step into a new era of cognitive robots:

- Commission and test advanced mobile robotics systems
- Support the commissioning of newly developed robotic products
- Analyze and interpret test data to enhance system performance
- Create technical documentation and ensure high-quality standards
- Develop and implement new navigation and manipulation features based on customer requirements
- Realize innovative, customer-specific robotic applications
- Collaborate within a dynamic and cross-functional team
- Actively shape the future of service and industrial robots

What we can look forward to

- University degree in Robotics, Mechatronics, Software Engineering, or a related field
- Solid knowledge of mobile robots or mobile manipulators
- Strong experience in delivering customer-ready robotics applications
- Proficiency in at least one of the following:

Software-focused: Python or C++
Automation-focused: TwinCAT SPS/PLC
- High level of self-motivation and a structured approach to solving complex challenges
- Strong team player with a collaborative mindset
- Excellent command of English; proficiency in German is a strong plus

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
