

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

**"We serve humanity"** is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

## Your mission & challenges

Together, we are taking the step into a new era of cognitive robots:

- You are responsible for the functional testing of our robots, as well as for calibration and the corresponding software update
- You carry out functional and performance tests to ensure that the systems meet the requirements
- You document any errors that occur and write the necessary error reports and are jointly responsible for troubleshooting any problems or malfunctions that occur
- You train users in the use of the systems and devices according to known training plans

## What we can look forward to

You are a technology enthusiast who wants to change the world for the better. You are passionate about your work, driven by a problem-solving mentality and have the following skills:

- You have completed technical training as a mechatronics technician, electronics technician , industrial mechanic ideally with several years of professional experience or further training as a technician / master craftsman
- Ideally you have professional experience in the field of automation / robotics or have comparable training and a keen interest in automation and robotics
- You have an engaging demeanor and a careful, clearly structured working style
- You feel comfortable in contact and dealing with customers and the associated communication in English and German is one of your strengths
- You are a team player with a service-oriented working style and, as a self-confident person, you always have an eye for the essentials

## What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

**Apply**

**We are looking forward to meeting you and shaping the future of robotics together. Are you in?**

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
