

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

Together, we are taking the step into a new era of cognitive robots:

- You are free to design and explore new algorithms for advanced dual-arm manipulation
- You will join a dynamic team
- You will help in shaping the future of service and industrial robots

What we can look forward to

- You have a Master of Science degree in Robotics, Software Engineering or similar.
- You have at least 3 years of work experience with robotics manipulators. Preferably Dual-Arm or Multi-Arm systems.
- You have excellent knowledge of robotic algorithms in one or more of the following fields: motion planning, graph or sampling-based planning in high-dimensional state spaces, planning under uncertainty, reinforcement learning, imitation learning, etc.
- You have profound knowledge in robotic manipulators and software development.
- You are highly skilled in Python and C++.
- You have excellent experience in Robotics Frameworks, such as ROS1/2, Gazebo or Mujoco.
- You are highly self-motivated to solve complex problems independently and systematically, but also to work as part of a cross-functional team.
- You will help in shaping the future of service and industrial robots
- You have a perfect command of the English language and, best of all, speak German well

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
