

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

**"We serve humanity"** is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

## Your mission & challenges

Together, we are taking the step into a new era of cognitive robots:

- You are free to design and explore new algorithms for mobile robots, operating individually and in swarms.
- You will develop task planning and mission distribution approaches for our robots, based on their resources and capabilities.
- You will enhance the navigation and docking capabilities of our robots.
- You will join a dynamic team
- You will help in shaping the future of service and industrial robots

# What we can look forward to

- You have a Master of Science degree in Robotics, Software Engineering or similar.
- You have excellent experience in realizing customer-ready robotics applications.
- You have at least 3 years of work experience in the field of mobile robotics.
- You have profound knowledge in mobile navigation and software development.
- You have excellent knowledge in SLAM and VSLAM approaches.
- You are highly skilled in Python and C++.
- You have excellent experience in Robotics Frameworks, such as ROS1/2, Gazebo or Mujoco.
- You are highly self-motivated to solve complex problems independently and systematically, but also to work as part of a cross-functional team

# What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

**Apply**

**We are looking forward to meeting you and shaping the future of robotics together. Are you in?**

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
