

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

The successful candidate will be working in a cutting-edge startup environment helping define the security, resiliency, and scalability of our infrastructure to support bringing disruptive robotic technology to the market.

- Install, configure, and maintain network hardware, including switches, routers, and access points.
- Plan, install, and test ethernet cabling for local area networks.
- Provide first-level support for network-related issues, diagnosing and resolving connectivity problems.

- Document all physical network connections, maintaining network diagrams, labelling, and inventory records.
- Planning, coordinating, and implementing physical network infrastructure projects, including new installations and network upgrades.
- Collaborate with IT staff and external vendors.
- Ensure compliance with company standards and health/safety guidelines during installation and maintenance work.

What we can look forward to

- Completed education or vocational training in IT, computer science, electronics, or a related technical field.
- Proven experience with network hardware and structured cabling installation (copper and fiber).
- Strong troubleshooting skills and ability to provide effective first-level support for network issues.
- Excellent written and spoken English communication skills.
- Valid EU class B driver's license (required for travel between sites as needed).

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
