

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

Our dedicated team of product managers specializes in understanding customer needs and developing transformative robotic products that enhance efficiency and create new opportunities across industries. We rely on creative ideas, agile processes, and close collaboration to achieve excellence and drive the future of robotics.

- Manage the entire robotics product development cycle from conception to market launch, ensuring timelines and budgets are met.
- Define milestones and priorities for product development in collaboration with the technical product team and create product roadmaps.
- Work closely with interdisciplinary teams, including technical development, marketing, and sales.

- Monitor and analyze product performance using KPIs, identifying opportunities for improvement and adjusting the strategy as needed.
- Analyze the market, competition, and customer needs to identify opportunities and challenges, defining product vision, goals, and strategy.
- Manage the product budget and ensure efficient resource utilization.
- Plan and execute Go-to-Market strategies in collaboration with the marketing team to increase product visibility.
- Continuously improve the product based on customer feedback and market demands.

What we can look forward to

You are a robotics technology enthusiast who is convinced that you can have a positive impact on the world. Your work is characterised by passion and a strong problem-solving mentality. You also have the following skills:

- Robotics expertise gained in a similar position, with a deep understanding of robotic products, the market, and emerging opportunities.
- Extensive knowledge of product development in robotics, software, or mechatronics.
- Strong understanding of the intersection between business and technology, particularly in robotics.
- Excellent communication skills in English and German to effectively engage with teams, stakeholders, and customers.
- Deep understanding of customer needs and expectations.
- Openness to innovation and creative solutions.
- High flexibility and willingness to travel within Germany, Europe, and worldwide.

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events

- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
