

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

Together, we are taking the step into a new era of cognitive robots:

- You design, simulate and optimize electronic circuits for integrated systems of cognitive robots.
- Work with interdisciplinary teams to define and implement embedded software solutions.
- Be responsible for building, commissioning and troubleshooting prototypes
- Carry out performance tests, verification and validation of electronic systems.
- Take responsibility for your own developments from concept to production.
- Work with hardware and software engineers and make an important contribution to the overall development process.
- Show initiative and keep up to date with industry trends and emerging new technologies.

What we can look forward to

- Bachelor's or Master's degree in Electrical Engineering, Electronics, or a related field.
- Experience in designing multi-layered printed circuit boards.
Proficient use of laboratory equipment.
- Familiarity with simulation and design tools (e.g., Altium).
- Strong problem-solving skills and the ability to work independently and in a team.
- Excellent communication and interpersonal skills.
- Your communication skills make you shine
- You have a perfect command of the English language and, best of all, speak German well

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
