

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

As Head of Robotics Product Management, you will be the strategic and operational leader for our robotics product portfolio. You'll define the vision, lead a high-performing team, and turn groundbreaking ideas into successful products. This role is your opportunity to shape the future of robotics – from concept to market.

- Own and define the product vision and roadmap for NEURA's robotic platforms
- Build, mentor, and lead a world-class product management team
- Translate complex technical innovations into clear, compelling value propositions
- Align product strategy with business goals, customer needs, and market opportunities
- Work cross-functionally with engineering, design, marketing, and sales to drive product success
- Monitor industry trends, competitor activities, and emerging technologies
- Represent the product team internally and externally – with partners, customers, and leadership

- Establish KPIs and ensure data-driven product decisions

What we can look forward to

- Extensive experience in robotics or automation
- Several years in product management, ideally with leadership responsibility
- Proven ability to develop and execute long-term product strategies
- Strong leadership skills: you inspire, empower, and bring clarity to your team
- Visionary mindset combined with hands-on execution and business acumen
- Excellent communication skills in English (German is a plus)
- Background in engineering, computer science, robotics, or business-related fields

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
