

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"**We serve humanity**" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

Together, we are taking the step into a new era of cognitive robots:

- Developing and implementing deep learning algorithms for robotics applications, object detection, pose estimation and manipulation
- Working with other engineers to design and build robotic systems
- Integrating deep learning models with robotic hardware and software
- Conducting research on new deep learning techniques for robotics

What we can look forward to

You are a technology enthusiast who wants to change the world for the better. You are passionate about your work, driven by a problem-solving mentality and have the following skills:

- Master's or PhD degree in computer science, robotics, or a related field
- 3+ years of experience in deep learning for robotics
Strong programming skills in Python and C++
- Sound experience with deep learning frameworks such as TensorFlow and PyTorch
- Experience with computer vision techniques such as object detection, image segmentation, and tracking
- Experience with robotics hardware and software
- Excellent problem-solving and debugging skills
- Ability to work independently and as part of a team
- You have a perfect command of the English language and, best of all, speak German well

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

Apply

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
