

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

As an Industrial Engineer, you have the opportunity to actively contribute to process optimization and sustainably increase efficiency in production through innovative approaches.

Your main responsibilities include:

- Analysis and continuous improvement of production and work processes
- Management and further development of value streams to increase efficiency
- Identification of cost-saving potentials and implementation of sustainable measures
- Support in the implementation of new technologies and production methods
- Close collaboration with interface departments for process optimization

What we can look forward to

- Completed degree in industrial engineering, production technology, technician qualification, or a comparable qualification
- Experience in applying Lean Management methods and continuous improvement
- REFA or MTM certification is an advantage
- Hands-on mentality with a structured and analytical working approach
- Ability to actively shape and implement change processes
- Strong communication skills and ability to work in a team

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

[Apply](#)

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
