

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

At NEURA Robotics, events are our central showcase into the future of cognitive robotics. At leading international trade fairs such as automatica, IFA, CES, and iREX, we inspire the world with our innovations. Additionally, our products and partners are increasingly present at summits, conferences, and similar platforms worldwide. As we continue to grow, we are expanding the Marketing Operations & Strategy division within our Marketing & Communications department and are looking for an experienced professional to successfully lead large-scale, high-impact event projects.

Your main tasks include:

- You will be responsible for planning, conceptualizing, and executing global trade show appearances and similar platforms featuring a wide range of robots.
- You will also design, plan, and manage other events such as roadshows or location openings.

- You will lead complex projects, coordinating internal stakeholders and external service providers (e.g., exhibition builders, agencies), while ensuring compliance with budgets, timelines, and the highest quality standards.
- In close collaboration with your colleagues, you will continuously optimize existing processes and strategically develop our event portfolio.
- Acting as a key interface between top management, product/project management, and sales, you will ensure that our events are strategically designed to maximize visibility and lead generation.
- You will establish clear KPIs to measure success, monitor event performance, and derive actionable recommendations for future improvements.
- You will proactively identify relevant event opportunities and strategically expand our global event network.

What we can look forward to

- Several years of professional experience managing complex, international large-scale events—either on the agency side or within a globally operating (technology) company.
- Proven success in the conception, budgeting, and execution of large-scale trade fair appearances.
- Strong strategic thinking and the ability to position events as a key lever in the marketing mix, developing a compelling and results-driven event strategy.
- Excellent organizational skills, leadership qualities, and a confident, professional demeanor—even under pressure.
- A hands-on mentality and a collaborative, team-oriented mindset with a strong focus on shared success.
- Fluent communication and negotiation skills in both German and English.
- Willingness to travel nationally and internationally.
- A strong affinity for and enthusiasm about future-focused topics such as robotics and artificial intelligence.

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward

- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

[Apply](#)

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
