

Robotics Rockstars Wanted!

Welcome to NEURA Robotics, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of NEURA laying the foundations for humans and robots to work hand in hand. "We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us. Welcome to NEURA Robotics - where innovation meets team spirit.

Robotics Rockstars Wanted!

Welcome to NEURA Robotics, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges:

- Build and further develop the reporting landscape using Microsoft Power BI
- Develop and maintain data models and semantic data structures
- Create dashboards, reports, and self-service analytics solutions
- Analyze complex schematic data relationships and structures (e.g., based on ConWeaver principles)
- Develop data-driven decision models and forecasts
- Define reporting standards, KPI structures, and governance
- Support business departments with data-driven analyses and decision-making processes

What we can look forward to:

- Strong experience with Microsoft Power BI
- Experience in data modeling and reporting architectures
- Solid knowledge of SQL and data preparation
- Ability to analyze complex data structures and present them in a clear and understandable way
- Structured, analytical, and solution-oriented working style
- Very good German and English skills, both written and spoken

Optional:

- Experience with Data Warehouse (DWH) structures
- Knowledge of the Microsoft Power Platform, especially Microsoft Power Apps and Microsoft Power Automate

What you can look forward to:

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

We are looking forward to meeting you and shaping the future of robotics together. Are you in?
