

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

Join our pioneering team in Malaysia and be at the forefront of cognitive robotics development! You'll work on cutting-edge AI applications for Neura Robotics' cognitive robots, including vision-based manipulation, natural language processing, robot/world simulation and reinforcement learning.

Are you a JPA Scholarship recipient? We welcome you!

The representative office is registered as a STAR employer with TalentCorp Malaysia, thus providing an attractive opportunity for PSD (JPA) scholarship recipients to serve in Malaysia and comply to the service bond in your scholarship contract, if applicable.

- You will collaborate with an interdisciplinary team of engineers and gain in-depth knowledge of robotics systems, including electronics, sensors, and controllers.
- You will participate in the design, development, and testing of new robotic functionalities.

- You will leverage your programming skills to develop AI-driven control and decision-making for our robots.

What we can look forward to

- Requirement:
 - You are currently pursuing a diploma or degree in Mechatronics, Robotics, Industrial Automation, Artificial Intelligence, Electrical Engineering, Computer Science, or a related field.
 - You are proficient in Python.
 - You are familiar with ROS/ROS2.
 - You have an excellent command of English.
- Preferred:
 - You are proficient in C++.
 - You have experience with, or an interest in, CAD and 3D printing.
 - You have a strong interest in intelligent machines, including machine vision, machine learning, and deep learning.
 - You are eager to learn, develop, and deploy the latest AI libraries and models to improve existing robotic applications.
 - You are skilled in organizing, streamlining, and managing essential office operations to ensure a well-coordinated and efficient work environment.

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

[Apply](#)

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
