

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

As a Production Engineer (Human) you actively contribute to the development and optimization of manufacturing processes to enhance both efficiency and quality in production.

Your main responsibilities include:

- Development and improvement of manufacturing processes to increase efficiency and quality
- Automation of complex manufacturing systems to enhance efficiency
- Design and further development of tools and manufacturing equipment
- Implementation and validation of measurement and testing technology for quality assurance
- Creation of methods for signal acquisition and processing
- Support in the development of new production technologies and manufacturing processes

- Close collaboration with research and development as well as production for the implementation of new solutions

What we can look forward to

- Completed degree in mechatronics, measurement and testing technology, or a comparable engineering qualification
- In-depth knowledge of automation technology and tool construction
- Experience in production-related development and implementation of technical solutions
- Analytical and structured working style with strong technical understanding
- Ability to collaborate across disciplines between development and production
- Strong communication skills and ability to work in a team

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

[Apply](#)

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
