

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

This internship offers a unique opportunity to work across diverse areas of software development, including:

- Graphical User Interface (GUI) Development: Design and implement user-friendly interfaces for robotic systems.
- Platform Engineering: Work on the core infrastructure and tools that power our robotics platform.
- Application Development: Develop software applications that enhance robot functionality and usability.

- Control Engineering: Contribute to real-time control systems and algorithms for robotics applications.
- As an intern, you will collaborate with experienced engineers and have the chance to contribute to meaningful projects that align with your skills and interests.

What we can look forward to

- Currently pursuing or recently completed a degree in Computer Science, Software Engineering, Robotics, or a related field.
- Proficiency in at least one programming language (e.g., C++, Python, Javascript).
- Familiarity with software development tools and practices (e.g., version control, debugging tools, CI/CD).
- Interest or experience in one or more focus areas (GUI design, robotics platforms, application development, control systems).
- Strong analytical and problem-solving skills.
Excellent communication and teamwork abilities.
- You have a perfect command of the English language and, best of all, speak German well

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 30 days of vacation
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

[Apply](#)

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
