

Welcome to **NEURA Robotics**, the innovator of the robotics world. Our goal is to equip collaborative robots with groundbreaking cognitive capabilities to enable safe and intuitive collaboration with humans. Under the leadership of founder David Reger, we have spent the first years of **NEURA Robotics** laying the foundations for humans and robots to work hand in hand.

"We serve humanity" is not just a motto, but our mission. Become part of our ambitious, international company and shape the future of robotics with us.

Welcome to **NEURA Robotics** - where innovation meets team spirit.

Your mission & challenges

In our humanoid robotics department, we are seeking several outstanding humanoid robot developers and an administrator to keep everything up and running. This includes:

- Procurement of technically sophisticated components and assemblies (e.g., mechanical structural parts, actuators, gearboxes, injection-molded parts)
- Procurement of standard and norm parts
- Conducting demanding price, contract, and delivery time negotiations with national and international suppliers
- Enforcement of cost, quality, and delivery targets, even in early development phases
- Analysis of cost structures (cost breakdown, should-cost analyses)
- Development and implementation of negotiation strategies for each product group
- Close cooperation with development for technical argumentation in negotiations

- Contract drafting in cooperation with legal (framework agreements, NDAs, SLAs)
- Active contribution to cost reduction and risk reduction programs

What we can look forward to

Must-have:

- Degree in mechanical engineering, industrial engineering, mechatronics, or comparable field
- Several years of experience in technical or strategic purchasing
- Proven strong negotiation skills with measurable results
- Very good technical understanding of complex mechanical components
- Experience in:
 - Price and contract negotiations
 - Supplier evaluations and development
 - Cost analyses and should-cost models
- Confident manner, assertiveness, and strong decision-making skills
- Business fluent German and English
- Structured approach to ERP systems (ideally Microsoft Dynamics)

Nice-to-have:

- Experience in the high-tech, robotics, or automation environment
- International supplier and contract experience
- Knowledge of series ramp-up and scaling
- Additional training in purchasing/negotiation

What you can look forward to

- Become part of an agile company, actively shape topics and benefit from flat hierarchies in a highly motivated team
- Enjoy an attractive salary, flexible working hours and 25 days of vacation
- Collaboration on highly innovative humanoid robotics systems

- Excellent location in Zurich Seefeld
- New and state-of-the-art office space and workstations
- The freedom to contribute your own ideas and drive them forward
- Celebrate successes together with company events
- Take advantage of our corporate benefits program
- And even more fun with great colleagues

[Apply](#)

We are looking forward to meeting you and shaping the future of robotics together. Are you in?

Couldn't find a suitable position? Please send us an unsolicited application.

We are always looking for passionate tech enthusiasts to help us revolutionize the world of robotics!
